As a frontend engineer with four years of experience, I possess a solid understanding of workflow processes and proficiency in web application development. Passionate about continuous learning and innovation, I am eager to leverage my skills to drive impactful engineering outcomes and contribute to the success of the company.

Work Experience

Moatable

Frontend Engineer

Jan 2025 - Now

- Participating in product development of Lofty CRM and its ecosystem including Lettings and Finance Pro platform.
- Frontend Development & Contribution:
 - Maintained and developed new features using React and Vue.
 - Led a team of 3–4 frontend engineers, owning task planning, code reviews, and release quality to ensure timely delivery and high product standards.
 - Authored and maintained comprehensive technical documentation, including coding conventions, UI library usage guides, and feature specifications to improve knowledge sharing and onboarding efficiency.
- Primary tech stack and tools: React, Vue, Axios, Webpack, Vite, Material Design, Element UI, Figma.

SalesHood

Frontend Engineer

Feb 2022 - Sep 2024

- Participating in product development following Agile/Scrum processes, collaborating with product managers and designers to define software solutions that meet customer needs.
- Solely responsible for the development, maintenance, and continuous improvement of the frontend for Client Sites—digital sales rooms, a micro frontend project.
- Frontend Development & Optimization:
 - Optimized performance using code splitting, lazy loading, and bundle size reduction, improving page load time by 2 seconds.
 - Implemented unit and end-to-end testing to ensure product quality and prevent regressions.
 - Improved application accessibility by following Web Content Accessibility Guidelines (WCAG) 2.1, ensuring compliance with accessibility best practices.
- Tooling & Development Workflow Improvements:
 - Migrated package management from npm to pnpm, improving installation speed and dependency resolution.
 - Set up and enforced ESLint configuration to enhance code quality and maintainability.
 - Maintained and updated project dependencies to ensure stability and security.
- Primary tech stack and tools: TypeScript, React, Redux, React Query, Axios, Ant Design, Storybook, Jest, Testing Library, Playwright, Figma.

Skills

- HTML, CSS & JavaScript/Typescript
 - NodeJs/Express, SQL
 - Vue, React, Redux, React-Query, Ant Design
 - Linux operating system
 - Git version control
